Summary

Detail-oriented Computer Science student with a strong focus on Cybersecurity, Red Teaming, and Penetration Testing. Backed by solid programming skills in Python and C++, and hands-on training in network security and ethical hacking. Proven ability to solve complex problems under pressure through competitive programming. Seeking an entry-level role or internship to apply my security knowledge in a professional environment.

Education

Bachelor of Science in Computer Science

Egyptian Chinese University (ECU) – Cairo, Egypt

Expected Graduation: June 2027

Experience & Internships

- Software Developer Intern | HITS Solutions *July 2025 – August 2025*
Successfully completed a one-month internship program focusing on software development and applied practices.

Technical Skills

- Languages: Python, C++, JavaScript
- Web: HTML, CSS, Git, GitHub
- Tools & Concepts: Embedded Systems (Basics), Version Control , PowerPoint
- Soft Skills: Fast Learner, Time Management, Presentation Skills, Teamwork

Projects & Achievements

Firefighting Robot (Embedded Systems Project)

- Built an autonomous robot capable of detecting and responding to fire using embedded systems.
- Integrated sensors, microcontrollers, and real-time logic.

Web Development Portfolio

- Developed multiple responsive web apps using HTML, CSS, JavaScript.
- All projects available on GitHub: [Philopateerosama](#)

ICPC Competitive Programming – ECU Team

- Participated in solving complex algorithmic problems using C++.
- Strengthened data structures, time complexity optimization, and teamwork under pressure.

Robotics Championship – Best Presentation (1st Place)

- Designed, built, and presented a robotic solution, earning top recognition for technical explanation and visual delivery.

Courses & Certifications

- Red Teaming, Ethical Hacking, Bug Hunting & Penetration Test (In Progress):
Udemy –Comprehensive course covering Linux, network attacks, web application attacks, and Active Directory hacking.
- 100 Days of Code: The Complete Python Pro Bootcamp (In Progress):
Udemy –Comprehensive course covering Python programming, OOP, web development (Flask), APIs, automation, data science basics, and GUI apps.
- Cyber Security Training (Completed September 2025):
National Telecommunication Institute (NTI) – Successfully completed 90 hours of hands-on training in networking security, penetration testing basics, and ethical hacking fundamentals.
- PHP Full Stack Professional Course (Completed May 2025):
American Academy for Engineering Training – Completed with an "Excellent" grade.
- Competitive Programming Training (Completed February 2025):
Egyptian Chinese University & Coach Academy – Completed 50 hours of intensive training focusing on problem-solving, data structures, and algorithms.
- IC3 Internet & Computing Core Certification (Completed October 2021):
Certified by the Central Agency for Organization & Administration – 30-hour program completed with an "Excellent" grade.
